### **Seeks P<sup>7(1)</sup> Intrepid Partners ...**

The Hudson River and connecting waterways have not seen scheduled passenger / freight marine shipping service in a long time. HEFTTCo will change that by operating a “green” marine passenger / freight service between Ithaca, NY and NYC and ports between.

The following are invited to contact the project organizer, Capt. Geoff Uttmark (200 GRT, Ret.) at [Geoff-NYC@shipshares.com](mailto:Geoff-NYC@shipshares.com):

1. Vessel Operators interested in forming a consortium of community marine operators all along the route.
2. Port & travel agents to arrange docking, sell tickets and freight space, arrange local PUD and pax connections.
3. Finger Lakes, Hudson Valley, Gotham cargo shippers / consignees willing to try *WIT* (warehouse-in-transit<sup>(2)</sup>).
4. Shipbuilders and repairers to build / service a Dunkirk-size fleet of HEFTTCo. entrepreneur-ships.
5. Capital providers of all sizes and persuasions who believe the *Green Revolution* is now and it starts here!
